

University OPEN HOUSE

California Northstate University hosted a University-Wide Open House on Saturday, November 21st, 2015. The event allowed attendees to receive pertinent information regarding the

University and the current programs offered via the three Colleges; College of Medicine, College of Pharmacy, and College of Health Sciences. The University President, Dean's from all three colleges, and other faculty and staff were present to give remarks, and to answer questions regarding the enrollment process. Sergeants from the United States Air Force and the United States Army presented information on the scholarship programs available to students. Two-hundred and fifty participants were present and enjoyed refreshments as well as a tour of the campus located in Elk Grove, CA.

"I want to thank you for the wonderful job you guys at CNU did during the Open House last weekend for hosting such an informative and delightful event. "

"I was lucky enough to be able to attend the open house this past Saturday and want to thank you for the open atmosphere and welcoming environment. The presentations were all extremely informative and the enthusiasm that each presenter gave spoke volumes as to the character and spirit of the school. "

"I want to personally thank you as well for spending so much time answering each and every question during the Q&A panel. You personally took the time to wait after and answer my question."

"I just wanted to thank you for inspiring me on Saturday. I attended the Open House at CNSU with my family and we were all very moved by your words. Personally, I was really impressed with how you believe in your students and the faculty at CNSU. I felt your energy."

"When you said you believe in second chances, I believed you. When you said CNSU is a family, I believed you. When you said you all make sure your students will make it, I believed you. When you said you have your students' best interest at heart, I believed you (you even brought the armed forces to help your future students pay for school)."
