Sending a Copy of Your Official Score Report

To generate an official report of your MCAT exam scores:

1. From the My Reports drop-down menu, select the Print Score Report.

   ![My Reports Menu]

   The report includes a verification code that you (and anyone you send the report to) can use to verify the report’s authenticity. Anyone with the verification code can securely retrieve a copy of that report via the Web.

2. E-mail report to COMadmissions@cnsu.edu. The Office of Admissions will then verify the scores via the weblink and verification code provided on the report.

   **Note:** Because the report includes sensitive biographical data (your name and date of birth), you are advised to use discretion when giving out the report or the verification code.

### Verification Code Availability

Your official score report and verification code will be available and valid for 90 days. Once the code expires you must generate a new report, which will include a new verification code.

Visit [https://services.aamc.org/30/scoreReportingWeb/#/help/examinee/topics](https://services.aamc.org/30/scoreReportingWeb/#/help/examinee/topics) for further assistance on this process, or contact the College of Medicine at COMadmissions@cnsu.edu or call 916-686-7813.
