Clinical Skills Facilitator – California Northstate University College of Medicine, Elk Grove, California, USA

Description: Clinical Skills Facilitator, Department of Medical Education, California Northstate University College of Medicine, Elk Grove, CA. This position will report to the Simulation Center Coordinator. Open until filled. Non-exempt, Part-time, staff position.

Responsibilities:
- Teach Clinical Skills first and second year medical students
- Support the Design and implement appropriate Clinical Skills laboratory experiences for medical students in an integrated curriculum
- Support student remediation planning and activities as related to clinical skills
- Academic, administrative and creative activities in Medical Skills course involving Standardized Patients (SP); working in collaboration with Medical Skills course director(s) to improve or expand existing materials used in SP encounters; directly overseeing the Standardized Patient presentation; and performing other related duties as assigned.
- Design/deliver outstanding student experience, attending to all curriculum matters, as well as maintaining a learning environment that promotes mutual respect and professional behavior on the part of faculty, staff, Standardized Patients, and students
- Prepares and updates materials for Clinical Skills sessions and assessments such as student/faculty guide, scenarios, checklists for Objective Structured Clinical Examination (OSCE); handouts, evaluations, and schedules.
- Support the training of all standardized patients in all aspects of case portrayal, checklist item recognition, physical exam procedures, and exam operations for all case presentations.
- Help maintain the cleanliness and tidiness of the simulation areas, including IDL lab
- Prepare simulation equipment, including partial task simulators for student training
- Other duties as assigned.

Qualifications:
- Medical or nursing background is strongly preferred
- This position requires a range of skills in areas of operations and workflow, computing, independent decision-making, and problem solving, in addition to experience working in a medical clinical skills or simulation laboratory, including high fidelity and partial task simulators.

Qualities:
- Exceptional interpersonal communication skills (e.g., with students, faculty, etc.)
- Commitment to professional excellence
Applications will be reviewed upon receipt. For full consideration, candidates should provide curriculum vitae with three references. All candidates are asked to provide a cover letter, articulating how their knowledge, experience, and beliefs have prepared them to function in support of California Northstate University’s vision and mission.

Please submit your cover letter, curriculum vitae, list of references, and any additional information to hr@cnsu.edu. Review of applicants will begin immediately and will continue until positions are filled.

California Northstate University is an Equal Opportunity and Affirmative Action Employer. All qualified candidates are encouraged to apply. For inquiries, please contact us at: e-mail: hr@cnsu.edu and/or telephone: (916) 686-7400.
